S.N. 9.

Letter No. 2184/109, dated the 11th November, 1931, from the Residency Surgeon, Bangalore.

In letter No. 4803, dated the 8th July, 1931, the Government of India were requested to waive the recoveries that should ordinarily be made under Fundamental Rule ---- 127(b) for pension and leave salary of the new Isolation Hospital establishment and accept payment as proposed by the Municipal Commission, Civil and Military Station, ----- Bangalore.

S. N. 4
406-31.

In their letter No. D. 2929-E/31, dated the 18th ----- September, 1931, the Government of India wanted to know whether the Resident considers that this is a really a case falling under Fundamental Rule 127 or that it is ----- perhaps merely a case dealing with what is practically a Government institution towards the maintenance of which

~~Government~~ Government

(4)

Government accepts a grant from the Municipal Commission. Please see para 7 of the late Sir Steuart Pears' letter No. 10513, dated the 6th December, 1926, in which it is stated as follows:-

"7. There are at present two sections in the Isolation Hospital of which one is set apart for the treatment of plague cases while the other is intended for patients suffering from small pox and other infectious diseases. Expenditure in the former section has been shared between the Municipal Commission and the Assigned Tract in the proportion 1 : 3 in accordance with the orders of the Government of India contained in the Foreign Department's telegram No. 833-I-A., dated the 31st March, 1899.

The ward staff of the small-pox section the cost of which amounts to Rs. 1068/- per annum is paid by the Municipal Commission while contingent expenditure on diet of patients, etc., amounting to Rs. 2519/- per annum is borne by the Assigned Tract Revenues. It is proposed to continue this arrangement until the new Hospital is completed. Therefore the entire cost of the Isolation Hospital including small-pox ward section will be paid by Government in the first instance and one-fourth of the total cost will be recovered subsequently from the Municipal Commission, Civil and Military Station, Bangalore. The Commission have agreed to the proposal."

From the above it is clear that the establishment created for managing the new Isolation Hospital should be viewed as created partly for the benefit of the Municipal Commission. Therefore this is really a case falling under Fundamental Rule 127. This view is also accepted by the Pay and Accounts Officer-Vide page 3 of his notes dated the 26th August, 1931.

In para 2 of the letter referred to above the Government of India enquire whether in the circumstances explained by the Pay and Accounts Officer, the Resident agrees with his view that in working out the entire cost the average and not the actual establishment charges are to be taken into account.

Please see S.N. 130 and 217/ 268-1914, in which the average pay of the Isolation Hospital establishment was taken into consideration. The Government of India may therefore be informed that the Resident agrees with the view of the Pay and Accounts Officer.

The Government of India now say that since the Resident agreed that in working out the entire cost the average and not the actual establishment charges should be taken into account, they would be glad to know whether the agreement should be construed to mean that the Resident is also prepared to withdraw his previous recommendation in respect of waiving of recoveries of leave and pension contributions ordinarily leviable from the municipal Commission as part of the recurring charges.

HON'BLE THE PRESIDENT'S TAPAL

(7)

The Resident's original recommendation was to waive the recovery of contribution for pension and leave salary and to allow the Municipal Commission to pay ¼th of the actual instead of the average cost of establishment Vide his letter No.4803 dated 8-7-1931.

S.N. 276
265/14
(F)

The agreement of the Resident with the Pay and Accounts Officer's view was only in regard to the correct calculation of the liability of the Municipal Commission, but did not necessarily mean a withdrawal of the previous recommendation. Government of India want to be assured of this.

In the proposed reply, only one of the two recommendations is referred to, viz., to waive the recovery of contribution for pension and leave charges, and not to the concession of paying a fourth of actual instead of average cost. We may (if the original recommendation should go up in toto) refer to both.

We may also have cleared at once another point which was raised by the Government of India in discussing this case. It is that "recurring" charges ~~should~~ might include charges not only on account of pay but also charges for leave and pension. Evidently, the Municipal Commission is under the impression that it would be asked to meet a share of pay only. We may tell the Government of India (I am presuming that the Resident is prepared to recommend it also) that the Municipal Commission may be allowed to pay a fourth share of the actual cost of the pay of establishment. The wording of the order should be definite lest audit raise questions regarding pension and leave charges later on.

And finally, I do not think that we can, in our letter to the Government of India, make the Municipal

Commission
say that they are not 'prepared' to pay etc. The fact is that they would be bound to pay, under rule, if the Government of India insist. They are really asking for a concession. We may therefore request the Government of India to 'permit' the Municipal Commission to pay only ¼th of actual cost of establishment and no other charge. The Government of India can pass the order under clause (c) of Fundamental Rule 127.

A draft is enclosed for consideration.

You seem to have observed the Resident's letter in the P.U.C. Note distinctly requires a note from Offg. Secy 31/10

In para 2 of the Resident's letter No. 5923, dated the 17th August, 1931, to the Government of India, ---- Foreign and Political Department, it was clearly stated that the sale proceeds would be credited to the ------- Assigned Tract Administration. In the P.U.C. the ----- Government of India state that the expenditure involved in the present proposal should be met from within the budget grants sanctioned for the Bangalore Assigned Tract for 1931-32 and that the profits realised from the sale of the site should be credited to the Government of India in due course.

It is more appropriate for the Government of India to say that the profits realised should be credited to Assigned Tract revenues, but as receipts of the Station are treated as Central for accounts purposes, they appear to have said that the receipts should go to the Government of India. The position may however be cleared by pointing out

out to them that amount realized will be credited to Assigned Tract revenues.

As the Commission's Resolution No. 6, dated the 30th July, 1926 does not provide for the payment of ¼th of the average cost of the new Isolation Hospital, the Hon'ble the Resident recommended to the Government of India that the recovery of ¼th charges may be based on the actual instead of the average cost of the new Isolation Hospital establishment.

S.N. 4.

In their letter No. D. 2929-E/31, dated the 18th September, 1931, the Government of India have asked the Resident whether he agrees with the views of the late Pay and Accounts Officer that in working out the entire cost the average and not the actual establishment charges are to be taken into account. In reply the Resident has stated that he agrees with the views of the Pay and Accounts Officer.

S.N. 10

The Resident's agreement with the Pay and Accounts Officer's views was only in regard to the correct calculation of the liability of the Municipal Commission but did not necessarily mean a withdrawal of the previous recommendation. This was explained to the Government of India.-Vide S.N. 12. The Government of India now ask the Resident to reconcile the position.

Draft letter to the Government of India explaining the position is submitted for approval. As the letter at S.N. 12 was drafted by the Financial Adviser, the file may be sent U.O. to him for making the necessary addition and alteration to the draft.

I think it would do to send a simple reply merely stating how the two positions taken up by the Resident in his letter of December 31 and in that of January 32 are not contradictory. We, in fact, did so already in para 1 of our letter of January 32. I do not think we should say anything about the Municipal Commission not being 'inclined' to pay.

Our ground for recommending is that the Commission understood that they would be asked to pay only the actual recurring charges, and not the average charges, when they resolved "to pay ¼ of the recurring charges of the New Isolation Hospital". But it seems to me that we need not at present enter into our reasons for the recommendation made. Government of India do not ask for them.

A draft is put up for consideration.

S.N. 2

Last year Mr. W.H. Murphy, Municipal Executive Engineer, Civil and Military Station, Bangalore, suggested that the site of the old Isolation Hospital may be divided into building sites and they may be sold separately with the buildings standing thereon. He stated that, if this was done, the buildings and sites would likely to fetch about Rs.17,000/- and construction of roads, culverts and drains would cost about Rs. 3427 so that there would be a net profit of Rs. 13573/- to the Assigned Tract Administration.

S.N. 3

The Government of India, who were addressed in the matter, accorded administrative approval and expenditure sanction to the estimate amounting to Rs. 3427/- on account of construction of roads, culverts and drains on the site of the old Isolation Hospital, Bangalore, on the definite understanding that a net profit as stated above will be realised by the sale of the site so improved. The roads, culverts, drains etc., referred to above were completed in April, 1932.

S.N. 6

S.N. 21 of (H)

S.N. 22

The Collector, Civil and Military Station, Bangalore, who was asked to make necessary arrangements for selling the sites, states that on the day of auction no one came forward to bid for the building sites and the buildings. He therefore, suggests that in order to make the sites more popular, a portion of the land belonging to the United Breweries and measuring 5525 sq. ft. might be acquired thereby connecting the area with Berley Street and giving access to it through much better surroundings. The probable cost of acquisition and erecting the compound wall would be about Rs. 773/-. It appears that this charge should reasonably be met from Municipal Revenues as the new road will be the property of the Municipal Commission.

S.N. 38 (J)

It

It appears that we cannot incur further expenditure on the site without obtaining the sanction of the Government of India. ---- Further the Collector states that no funds are available in the current year's Assigned Tract budget to meet this expenditure.

If approved the file may be sent U.O. to Mr. Murphy for favour of remarks on his return from leave, as the original proposal was made to the Government of India on his suggestion. He will probably arrange to carry out the work from Municipal funds to which the charge is legitimately debitable.

I request Mr Murphy when he returns from leave to record a note as to the cost of the proposed road is a legitimate charge on municipal funds. It is proposed to take over the value of land for the purpose of the road. In all such cases, the Commission takes over roads after they are laid out & consolidated, bearing the cost of future maintenance, e.g. the road in front of my bungalow. I have asked the engineers to call the materials on the site, and I hope many can be used for the new road, it will doubtless cover the cost.

OFFICE OF THE EXECUTIVE ENGINEER No Cant 610 Date 14/9/32 BANGALORE. STATION

The lay-out of the site is not in accordance with the original plan approved by the Hon'ble the Resident and the Municipal Commission. A copy of the original approved plan is herewith attached. From this it will be seen that on the old hospital site there are only 14 full plots and two strips of land adjoining municipal land that go to make up two other plots of the proposed lay-out. Again, the new plan shows a road 20' wide to be taken off the noth end of the northernmost sites thus reducing their depths by 20'. The original plan shows a road 40' wide inside - private property and this road with necessary culverts was intended to be constructed by the owners of that property as is generally done in similar cases in the station.

If the municipality do not claim part of the sale proceeds of the two sites outlined in yellow in accompanying plan the cost of acquisition will I think be a fair charge on Government but, if they claim payment for their portion of ~~their~~ the land sold as part of the sites they should, I think, meet part, if not all the cost of acquisition.

As regards cost of acquisition of land required for extending the road, item (b) should be disallowed, as the owners of the land cannot possibly claim payment ~~from~~ for the compound wall if a new - - compound wall is to be built for them at Government expense, and the wall proposed to be built will be very much more substantial than the existing one, which is partly built of mud.

The cost of acquisition will then be reduced as follows:-

I (a)	Value of plot 5025 sft at 0/1/0 --	Rs.314/-
(b)	15% statutory allowance	47/-
		361
II	Cost of erecting compound wall.	264

The land proposed to be reserved comprises 6 2/3 sites valued at about Rs.5300/-. I recommend the E.E's suggestion, as this would not only be a great benefit to the children of the locality but would make the remaining sites more popular and attract intending purchasers.

the Rs.3186/-. A sum of Rs.3427/- has already been spent on account of construction of roads etc. Instead of postponing the scheme, I request that the Hon'ble the Resident may address the Government of India regarding the above facts and obtain their sanction for the transfer of the land to the Municipality and for the incurring of additional expenditure of about Rs.315/-, being moiety of cost of acquisition etc. The remaining sites ($14\ ^{2}/_{3}-6^{2}/_{3}$)= 8 may fetch about Rs.800 X 8 =6400/-, excluding the land transferred to the Municipality.

The Secretary to the Hon'ble the Resident in Mysore
Bangalore.

When the Honourable the Resident inspected the Old Isolation Hospital site with the Collector and Municipal Executive Engineer, it was suggested that a portion of the site should not be sold as originally proposed but, kept open and made over to the Municipality for the purpose of providing a recreation ground for the residents of Langford Town and that neighbourhood, as that part of the town had no recreation ground, as can be seen from the 16" to the mile map of that area(herewith attached). The land proposed to be reserved for this purpose is shown hatched in red lines on the map and comprises 6.2/3 sites of the 14.2/3 sites provided in the original lay-out. The approximate value of each site is about Rs.800/- and the total area of the 6.2/3 sites is nearly 2¼ acres. If the Honourable the Resident could kindly transfer the land free of cost to the Municipality, it would be a great boon to the residents of that locality.

Letter No.1995/109-A., dated the 12th December, 1932, from the Residency Surgeon, Bangalore.

Please see S.N. 39 and 40 and the notes in paras 1 and 2. The Residency Surgeon, Bangalore, asks for the sanction of the Resident to treat the leave which he proposes to grant to Mr. DeRozario from 24th December 1932, to 2nd January, 1933 as leave on average pay and to grant Mr. C. Rajagopaul, Municipal Sub Assistant Surgeon, an acting allowance of Rs.60/- per mensem.

Under Supplementary Rule 285, leave on average pay may be granted to Mr. DeRozario, Officiating Assistant Surgeon, Isolation Hospital, Bangalore, provided that it involves no expense to Government. In Resolution No.F.12(70)-R.I/32, dated the 30th November, 1932, the Governor-General in Council is pleased to decide that the condition of "no expense to Government" laid down in the proviso to S.R.285 shall be waived in the case of Government servants who, though holding permanent posts have not been appointed substantively thereto on account of the general embargo on confirmation etc.

The Residency Surgeon's proposal may, therefore, be sanctioned.

The definite understanding in para 2 of G.O.'s letter at S.N. 6 has been broken. How are we to explain this? Why was it not adhered to?
25
22 22

The definite understanding was that we should realise by the sale of old Isolation Hospital --------

Rs.

Rs. 13573/- as shown below:-

	Rs.
Cost of Buildings and sites	17,000/-
Deduct:- Cost of construction of roads, culverts and drains etc... ...	-3,427/-
Net profit to Mysore Assigned Tract ...	13,573/-

This could not be realised as there was no bid for the building sites. The chief reason for this was that the sites are enclosed on three sides by cemeteries and the only road leading to the area either pass through these cemeteries or else through the village of Puduparacherri, neither route being an attractive one.

Further the Municipal Commission now ask for the transfer of 2¼ acres of land valued at Rs. 5,300/- free of cost for the purpose of providing a recreation ground for the residents of Langford Town and the neighbourhood. Therefore we cannot adhere to the old undertaking.

Draft letter to the Government of India explaining the above is submitted for approval.

With reference to your letter No.3729-268-1914, dated the 22nd May 1931, I have the honour to state that as far as can be foreseen the land on which the Old Isolation Hospital, Bangalore, stands is not likely to be required for any Military purpose.

The Military Authorities have no objection to the property being sold by Public Auction, the site being divided into building sites as shown in the plan returned herewith.

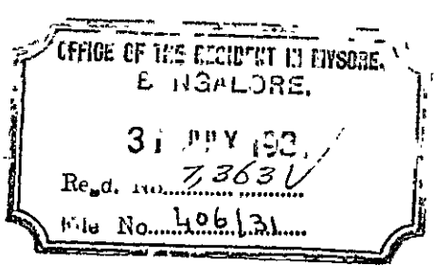
SIR,

S.N. 247 (B) (A)

In continuation of my letter No.C.W.M.600 dated the 28th January 1931, I have the honour to submit herewith an estimate amounting to Rs.3,427/- for constructing roads and culverts, as indicated in accompanying blue print plan. The estimate provides for constructing abutments of culverts with old stone in clay masonry ~~for abutments~~ with cement pointing to all exposed faces, old stone slabs with cement pointing for beds and new stone slabs for covering the openings. Parapets will be of stone slabs dressed one line. The eastern compound wall will be dismantled and all old materials will be used for culverts and "V" section drains. Provision is also made for properly grading the roads and removing outcrops of rock. After the roads and drains are constructed, the sites with the buildings on them will be sold by public auction. The anticipated realizations are likely to be about Rs.17,000/-.

I would not advise selling the sites before constructing the roads and drains, as they would not fetch the same price, but very much less.



I have the honour to be
Sir,
Your most obedient servant,

No. 5923 Dated 17th Aug. 1927.

From The Hon'ble the Resident in Mysore.

To

The Political Secretary to the Government of India, Foreign and Political Department.

Subject:- Sale of the site and ------ buildings of the old Isolation Hospital Bangalore.

Sir,

I have the honour to refer to your Memo. No. 5(12)-A, dated the 19th May, 1927, according the revised ------ administrative approval of the Government of India to the construction of the new Isolation Hospital, Bangalore, at an estimated cost of Rs. 1,32,029.

2. The estimate approved by the Government of India provided for a --- credit of Rs. 7,000/- to be realised by the sale of site and buildings of the old Isolation Hospital. The ----- Municipal Executive Engineer, Civil and Military Station, Bangalore, ------ suggests that the best course would be to divide the site into building sites and to sell them separately with the buildings standing thereon. If this

MGIPC—S1—768(S1)DCF—(G-348)—11-7-29—50,000 Pads.

is done the buildings and sites are likely to fetch about Rs. 17,000/- and construction of roads, culverts and drains will cost ----- about Rs. 3,427/-, so that there will be a net profit of Rs. 13,573/- to the Assigned Tract Administration. The Municipal Commission, Civil and Military Station, Bangalore, who were asked to purchase the site, state that they approve of the lay out of the site of the old Isolation Hospital, as prepared by the Executive Engineer but they are not ---- prepared to purchase the site and buildings as proposed by this Residency.

3. The Pay and Accounts Officer, -------- Bangalore, who was consulted in the matter, considers that the proposed expenditure of Rs. 3427/-, if sanctioned, will form a charge against the estimate and as it has to be ---- incurred before the sale can be effected ---- and credit afforded to the estimate, the approval of the Government of India, who sanctioned the original estimate, would be required to carry out the additional works not contemplated in the original project.

4. In the circumstances I submit an estimate amounting to Rs. 3,427/- for ----- constructing roads, culverts etc., as ------ indicated in the accompanying blue print plan, together with a copy of a letter No. C.W.M. 221, dated the 30th July, 1931, from the Municipal Executive Engineer, and ------ request that the Government of India may

be pleased to sanction the estimate. The cost will be met from the allotment in the current year's Bangalore budget estimates under the head "Account III-Medical and Public Health-A.-Medical - Hospitals and Dispensaries-A.-5-Works."

5. The land on which the old Isolation Hospital, Bangalore, stands is not likely to be required for any Military purpose. The Military Authorities have no objection to the property being sold by public auction.

Sir,

S.N. 276 268/14 (F)

With reference to your letter No. 4803 268-1914, dated the 8th July 1931, I am directed to say that before coming to a decision in the matter the Government of India would like to know whether you consider that this is really a case falling under Fundamental Rule 127 or that it is perhaps merely a case dealing with what is practically a Government institution towards the maintenance of which Government accepts a grant from the Municipal Commission. The views of the Pay and Accounts Officer, Bangalore, who was consulted in the matter will be found in his note dated the 26th August 1931 (copy enclosed).

2. It will be seen that the Pay and Accounts Officer is also of opinion that in working out the entire cost the average and not the actual establishment charges are to be taken into account and I am to enquire whether in the

circumstances explained you agree with his view.

(I)

The orders of the Foreign and Political Department in paragraph 4 of their memorandum No. 5-(12)-A., dated 19th May 1927, were that the entire cost of maintaining the new Isolation Hospital should be paid by the Government in the first instance and that one fourth of the total cost should be recovered from the Municipal Commission. These

S.N.73
268/14
(H)

orders were passed on the Resident's letter No. 10513/268-1914, dated the 6th December 1926, in paragraph 4 of which he divided the charges into 'recurring' and 'non-recurring' charges, and stated in paragraph 5 that the Municipal Commission was prepared to pay one-fourth of the recurring charges. A statement of the recurring charges was also enclosed to that letter which showed the average (not the actual) pay of a Sub-Assistant Surgeon and a European Nurse. Again in proposing additional establishment for the New Hospital, which was sanctioned in Foreign and Political

Department memorandum No. F-312(14)-E/28, dated 7th April 1930, the Resident took the one-fourth share payable by the Municipal Commission as one-fourth of the average cost - vide

paragraph 3 of his letter No. 10601/268-1914, dated 16-11-1928.

It

It therefore appeared that the term 'recurring charges' was used by the Resident and understood by the Foreign and Political Department to denote establishment and contingent charges (i.e. other than capital or non-recurring charges) and that, in working out the entire cost, the average and not the actual establishment charges were to be taken.

In the old Isolation Hospital, the establishment was temporary, the sanction to which was renewed year after year, and consisted of one Assistant Surgeon on a fixed pay of Rs.125/- per month and a peon on Rs.15/- per month. The question of recovery of average or actual cost and of recovery of contribution for pension and leave salary did not therefore arise. But with the appointment of permanent staff for the New Hospital the recovery to be made from the Municipal Commission had to be determined, and it appeared that it should be calculated under Fundamental Rule 127. In the analogous case where the services of the Lady Doctor of the (Government) Gosha Hospital were shared by Government and the Municipal Commission, the one-fourth share payable by the Commission was determined under the same rule. Please see Foreign and Political Department memo. No. 13(97)-A., dated 5-5-1927, and paragraph 5 of their memo. No. 5(14)-A,

S.N. 298 + 258

249/19

— dated

dated 21-10-1927. Even in that case, the contention of the Municipal Commission was that they had agreed to pay only one-fourth of the actual salary and nothing towards leave and pensionary contribution.

Regarding the general question whether Fundamental Rule 127 applies to the case, it seems to depend on the answer to another question why any recovery from the Municipal Commission should be made at all. If it is because an Isolation Hospital is as much a matter of Municipal concern as Government's, it appears that the establishment created for managing the new Isolation Hospital might be viewed as created partly for the benefit of the Municipal Commission. The proceedings of the Municipal Commission at their meeting held on 30-7-1926 would also seem to point to this. It is stated therein that "the lack of an up-to-date Isolation Hospital had been a blot on the administration - (obviously Municipal administration is meant) - of the Station and the President did not think that the Commission would be doing badly, if they got Government to pay for a new hospital even if they had to pay Rs.5,000/- more for its up-keep."

S.N.68|A
268|14
(N)

As the Assistant Secretary, Finance Department, points out, there is no reason why "recurring" charges should

exclude

exclude leave and pension charges. It is a matter of convenience that they are assessed at particular rates under Fundamental Rule 127, instead of on actuals as they occur.

It would appear therefore that whether Fundamental Rule 127 applies to the case directly or not, the Government of India are entitled to ask the Municipal Commission to pay leave and pensionary contribution (in lieu of actual leave and pensionary charges) as part of the recurring charges which they have agreed to pay. Even in the case of joint establishments shared between Central and Provincial Governments, the cost to be recovered from Provincial Governments includes charges for leave and pension liabilities - vide Government of India, Finance Department, memorandum No. P/2741-A, dated 15-3-29. There seems to be no reason why such charges should be excluded from the calculation of cost to be recovered from the Municipality where a joint establishment is shared between Government and the Municipal Commission.

The Government of India have therefore to decide whether to accept the recommendations of the Resident or not. If they decide to accept them, and if the case is not brought under Fundamental Rule 127, they may issue orders accepting either in whole or in part the proposals of the Resident.

If,

however, Fundamental Rule 127 is considered to be applicable, a similar order under clause (c) of Fundamental Rule 127 can, it seems, be issued as that clause gives the Government of India full powers to remit or reduce contributions. The difference between the actuals recovered and the amount ordinarily recoverable under Fundamental Rule 127 might be treated as the amount remitted.

Sir,

With reference to your letter No.F.203-E/31, dated the 17th December 1931, I have the honour to state that in my letter No.8692/406-1931, dated 3-12-1931, I wished merely to express my agreement as regards the calculation of the cost payable by the Municipal Commission as their share of the maintenance of the Isolation Hospital, but did not intend to withdraw the recommendations previously made in my letter No.4803 dated 8-7-1931 that the recovery of ¼th charges may be based on the actual instead of the average cost of the establishment and that the leave and pensionary contribution recoverable under Fundamental Rule 127(b) may be waived altogether.

I request that the Government of India may be pleased to pass orders accordingly under Fundamental Rule 127(c). I also request that it may be clear in their orders that the Municipal Commission need not be called upon to pay any share of the actual charges on account of pensions and leave salaries, which may strictly be held to form part of "recurring" charges.

To

The Hon'ble the Resident in Mysore.

Dated, New Delhi, the 10th February 1932.

Recovery from the Municipal Commission on account of the New Isolation Hospital, Civil & Military Station, Bangalore.

Sir,

With reference to the correspondence ending with your letter No.621/406-1931, dated the 26th January 1932, I am directed to say that in your letter of the 3rd December last you agreed that in working out the entire cost the average and not the actual establishment charges should be taken into account. In your letter under reference you, however, reiterate inter alia your original recommendation that the recovery of ¼th charges may be based on the actual instead of the average cost of the establishment. I am to request that the position may kindly be reconciled.

I have the honour to be,

Sir,

Your most obedient servant,

From

The Hon'ble the Resident,

To

The Secretary to the Government of India,
Foreign and Political Department, New Delhi.

Sir,

With reference to your letter No.F.203-E/31, dated 10-2-1932, I have the honour to refer you to paragraph 1 of my letter No.621, dated 26th January 1932, in which the position taken by me was explained. In my letter of 3rd December last, I agreed that the correct method of calculation was that based on the average and not on the actual cost, and do so still. But I had recommended that the Municipal Commission may, as a special case, be permitted to pay their ¼th share on the actual cost, and reiterated this recommendation in my letter of 26th January 1932. It is a concession which I requested the Government of India to be pleased to sanction under Fundamendal Rule 127(c).

SIR,

Sub:- Cost of maintenance of the Isolation Hospital, Bangalore - Recovery of proportionate share from the Municipal Commission, C & M Station

---

I have the honour to invite a reference to paragraph 12-A of the Bangalore Manual as introduced in correction slip No. XVI-1, dated 17-10-1927 requiring that one-fourth of the total cost of maintenance of the Isolation Hospital, Bangalore should be recovered from the Municipal Commission. The necessary demand was issued to the Municipal Commission at the close of each month by the late Pay and Accounts Officer, Bangalore, upto and for the month of September 19

2. In respect of the months from October 1931 to January 1932, the demand was issued by this office. But propose to discontinue this procedure in future, and sugges that the Residency Surgeon, Bangalore who is the Controlli Officer for expenditure under '32 Medical' in the Mysore Assigned Tracts Budget, may be required to issue the demand at the close of each month. The demand may be forwarded through this office so that the figures may be checked wit those booked in this office.

3. It is presumed that the above suggestion will m with the approval of the Hon'ble the Resident in which ca

case necessary instructions may kindly be issued to the Residency Surgeon.

SIR,

Subject: Charges in respect of the Isolation Hospital, Bangalore--Recovery of proportionate share from the Municipal Commission, Civil and Municipal Station.

F.N 85/258-14.

I have the honour to invite a reference to Government of India, Foreign and Political Department Memorandum No.5(12)-A dated 19-5-1927, embodied in paragraph 12-A of the Bangalore Manual, directing that the entire cost of maintaining the Isolation Hospital at Bangalore should be paid by Government in the first instance and one fourth of the total cost recovered later from the Municipal Commission.

2. In accordance with the above Memorandum, demands for recovery of the proportionate share of charges were issued to the President, Municipal Commission, on the basis of the entire cost of maintenance. But the President of the Commission intimates to this office that the cost of Furniture and apparatus included in the demand is a non-recurring item and is not, therefore, a legitimate charge on the Municipal Funds. copy of Resolution No.6 dated 30-7-1926 of the Municipal Commission agreeing to bear ¼ of the recurring charges

of the new Isolation Hospital quoted by the President in support of his contention is herewith forwarded.

3. The item "Furniture and Apparatus" was included in the demand with the idea that charges incurred in replacing certain kinds of apparatus or in effecting petty additions to the Hospital equipments are of the nature of expenses required for maintaining the Hospital and have to be treated as "recurring". As the item has, however, been challenged by the Municipal Commission, I request to be favoured with an authoritative definition of the expression "total cost" used in the Government of India Memorandum quoted in paragraph 1 supra and of the ~~desirability~~ description of charges that have to be excluded therefrom.

With reference to your Memorandum No.2635/406 of 1931 dated the 14th April 1932, forwarding a copy of letter No.T.13-Bang.516, dated the 2nd April 1932 from the Accountant-General, Madras, on the above subject, for my remarks as to the circumstances under which the Commission refuse to bear the recurring expenditure referred to therein, I have the honour to point out that the Municipal Commission was requested definitely to contribute towards the recurring expenses (vide Residency Surgeon's letter No.309/109 dated the 11th May 1926, copy enclosed) and they accordingly agreed to the contribution of a quarter of the recurring expenditure in their resolution No.6 dated the 30th July 1926. As the claim in question is in respect of non-recurring expenditure, it has been refused, as it is not in accordance with the resolution cited above. In this connection, I have also to point out that claims for a proportionate contribution in respect of non-recurring (capital) expenditure were preferred in 1930 vide Pay and Accounts Officer's letters Nos. quoted on the margin (copies enclosed) but afterwards withdrawn on a representation by this office - vide this office letters No.3961/30 dated the 11th December 1930 and 3961/30 dated the 7th January 1931 and Pay and Accounts

I have the honour to inform you that after due consultation with the Municipal Executive Engineer and with the Health Officer, Civil and Military Station, Bangalore, it has been decided that the best site on which to build the New Isolation Hospital is a plot of land on the Old Madras road opposite the Convent. Of this area, eight acres will be necessary and steps will now be initiated so as to acquire the land.

I trust that the Municipal Commission will see their way to provide an annual contribution towards the running expenses of the New Isolation Hospital in the proportion contemplated in your note to the Secretary to the Resident dated 6th March 1926.

I am addressing the Collector, Civil and Military Station of Bangalore, asking him to kindly take steps to acquire the land above indicated.

Letter No.3793 dated 26th September 1932 from Messrs. B.L. Gajaraj Moodr. & Sons, General Auctioneers, Bangalore to the Collector, Civil and Military Station, Bangalore.

As per your kind instruction, we sold by public auction the materials in the buildings standing on the site of the old Isolation Hospital, in Oosur Cemetery Road Cross on Sunday the 25th September 1932 at the spot. The sale commenced at 10 A. M. and terminated after 11 A. M.

There were a lot of people at the sale. The Executive Engineer of the C & M Station, Bangalore was also present. At the suggestion of the bidders and with the approval of the Executive Engineer, the time for demolishing and removing the materials was made three months instead of two.

The building materials were knocked down to Mr. K. Muninanjappa for his highest bid of Rs.3,400/- Rupees Three Thousand Four Hundred only. He has paid the advance necessary under the conditions viz. Rs.850/- being one fourth of the bid amount. The sale is subject to the approval of and confirmation by the Hon'ble the British Resident.

We enclose herein copies of auction notices and detailed sale list. The sale was also advertised in the Bangalore Mail.

We await your further early instruction in the matter.

Old Isolation Hospital - Sale of the site and buildings of - Your letter No.2915/406 of 1931 dated the 27th April 1932.

The auctioneers report that, on the day of auction, no one came forward to bid for the building sites and the buildings. The chief reson for this was that the sites are enclosed on three sides by cemeteris, belonging to three different communities, and the only roads leading to the area either pass through these cemeteries or else through the village of Puduparacheri, neither route being an attractive one. They suggest that, in order to make the sites more popular, a portion of the land belonging to the United Breweries and measuring 5525 sq.ft. as shown in the accompanying plan, might be acquired, thereby connecting the area with Berley Street, and giving access to it through much better surroundings. The owners of the land, that would have to be acquired if these proposals were carried out, request that a wall of some sort should be built to enclose the area that will be exposed after the road is laid out. The probable costs of acquisition and erecting the compound

wall

wall would be about Rs.773/- as shown in the margin.*

I therefore request that you will kindly obtain the sanction of the Hon'ble the Resident to the acquisition of the plot and the construction of a compound wall as marked in the plan herewith sent for reference and kind return. I consider that unless this improvement is carried out it will be difficult to get reasonable offers for these building sites. 288-1914.

With reference to the correspondence ending with your letter No. Gt.25/31, dated the 31st March, 1931, I am directed to forward a copy of a note dated the 29th November, 1932, from the Municipal Executive Engineer, Civil and Military Station, Bangalore, with enclosure, suggesting that 2¼ acres of land valued at Rs.5,300/- belonging to the old Isolation Hospital, Bangalore, may be transferred to the Municipal Commission, Civil and Military Station, Bangalore, free of cost, for the purpose of providing a recreation ground for the residents of Langford Town and the neighbourhood and to state that the Collector, Civil and Military Station, Bangalore, has also recommended the proposal.

2. I am to enquire whether the Commission require the land in question for the purpose stated above and, if so, whether they are prepared to meet the cost of acquisition of a portion of the land belonging to the United Breweries and measuring 5025 Sq. ft. and the cost of construction of new roads for connecting the area with Berley Street and giving access to it through better surroundings.

I am to say that if they are not prepared to do so, it is unlikely that Government will agree to the free transfer to the
